

## **Decision Making Process**

---

We respond promptly to all investment proposals. If our initial review supports continued consideration of an investment proposal, we meet with the management team to discuss the company, industry and opportunity. We understand the frustrations associated with selling, recapitalizing and financing a business. At Argosy Private Equity, you will interact directly with experienced, knowledgeable decision makers – not with bureaucracies and committees requiring multiple layers of approvals. Upon making a commitment, we dedicate the resources required to manage the process professionally and efficiently to a timely close. Our reputation has been built on integrity – when we make a commitment, we honor it.
